Financial Highlights

The Group is the second largest operator and the largest non-state owned operator of iron ore mines in Sichuan in terms of actual output volume of iron ore for the Reporting Period according to the Sichuan Metallurgy Economic Association. The Group is primarily engaged in mining, ore processing, iron pelletising and sale of iron concentrates, iron pellets and titanium concentrates to steel producers and downstream users of titanium-related products.

The Group's revenue amounted to approximately RMB685.9 million for the Reporting Period, representing an increase of RMB199.9 million or 41.1% as compared to approximately RMB486.0 million for the six months ended 30 June 2009.

The Group's gross profit increased by 71.6%, from approximately RMB209.5 million for the six months ended 30 June 2009 to approximately RMB359.6 million for the Reporting Period. With the increase in the average selling prices of iron ore products, the gross profit margin increased from approximately 43.1% for the six months ended 30 June 2009 to approximately 52.4% for the Reporting Period.

The total comprehensive income attributable to owners of the Company for the Reporting Period was approximately RMB233.6 million, representing an increase of 75.1% as compared to approximately RMB133.4 million for the six months ended 30 June 2009. Net Profit Margin for the Reporting Period was approximately 34.1% as compared to approximately 27.4% for the six months ended 30 June 2009.

The basic and diluted earnings per share attributable to ordinary equity holders of the Company amounted to approximately RMB11 cents for the Reporting Period (six months ended 30 June 2009: RMB9 cents).

The Board does not recommend the payment of an interim dividend for the Reporting Period.

China Vanadium Titano-Magnetite Mining Company Limited • 2010 Interim Report

MARKET REVIEW

The global economy embarked on a road to recovery in the first half of 2010 after a severe financial crisis. With the proactive stimulating policies initiated by the PRC government to further boost investments and jump-start domestic demand, domestic industries started to rebound and add growth momentum to the economy. According to the National Bureau of Statistics of China, China's GDP for the first half of 2010 grew by 11.1% year-on-year and hit RMB17.3 trillion while Sichuan enjoyed an even more significant year-on-year growth of 16.3% to RMB746.6 billion, both well ahead of the country's annual economic growth target at around 8% for 2010. Together with the development of the country's western region, ongoing post-earthquake construction in Sichuan and the Chengdu-Chongqing Economic Zone development, all these favourable market conditions have further stimulated strong demand for steel in Sichuan and thus boosting that for iron ore.

Driven by the growing demand of the PRC's steel market and domestic supply-demand shortage, the iron ore prices have continued to surge. In addition, the consolidated nature of the three major global miners and higher Indian export tariffs on iron ore and iron ore fines, which would increase import costs and limit supplies, also kept the iron ore prices to stay high in the first half of 2010. The continuous demand for iron ore, coupled with high iron ore prices, further bolstered the development of domestic iron ore industry.

Furthermore, the consolidation and uplift of the steel industry have stimulated the need for vanadium in the PRC. According to the Blueprint for the Adjustment and Revitalisation of the Steel Industry (鋼鐵產業調整和振興規劃) issued on 20 March 2009, nationwide utilisation of hot-rolled ribbed steel bars with a strength of more than 400 MPa has to reach 60% or above by 2011. As vanadium is the only widely used steel additive to increase steel strength, this policy has led to an explosive new demand for vanadium-bearing titano-magnetite.

BUSINESS AND OPERATION REVIEW

During the Reporting Period, the Group achieved remarkable profit growth. The revenue of the Group boosted by 41.1% to approximately RMB685.9 million as compared to the six months ended 30 June 2009. The total comprehensive income attributable to owners of the Company amounted to approximately RMB233.6 million, an increase of approximately 75.1% as compared to the six months ended 30 June 2009.

In order to capture the rising business opportunities, the Group continued to implement its growth strategies through expansion of mineral resources and processing capacity during the Reporting Period.

Mapping New Resources

The Group has made further inroads in pursuing business growth through expansion of mineral resources, particularly acquiring other mining sites.

On 16 January 2010, the Group successfully entered into a definitive agreement to obtain the mining right of Yangqueqing Mine. In addition, the transaction provides the Group with the opportunity to expand the current permitted mining area and to explore the neighbouring iron ore resources, which is estimated to be up to 81.6 Mt at a low cost. Furthermore, on 3 February 2010, the Group entered into an assets transfer agreement to acquire the exploration right of the Cizhuqing Mine. This would significantly increase the iron ore resources of the Group and facilitate the expansion of the Group in respect of its iron mining area in Sichuan, thus further improving its profitability and competitiveness. With proactive acquisition of mineral resources, the Group has achieved substantial expansion, thus heightening its resources level during the Reporting Period.

Continuous Capacity Expansion

Capacity expansion has long been one of the Group's key focuses for sustainable development. In view of this, the Group has determined to further uplift its production capacity through upgrading its existing processing facilities as well as acquiring external plants.

On 3 February and 11 March 2010, the Group acquired the Hailong Processing Plant and the Heigutian Processing Plant respectively, uplifting the annual production capacity of iron concentrates and high-grade titanium concentrates.

As at 30 June 2010, the Group owned and operated 4 processing plants, the Baicao Processing Plant, the Xiushuihe Processing Plant, the Hailong Processing Plant and the Heigutian Processing Plant, and one Iron Pelletising Plant, all located in the Panxi Region, with production capacity of iron concentrates and iron pellets (including the 400 Kt production capacity allocated to the Group by the independent third party pelletising contractors) amounted to 2,300 Kt and 760 Kt, respectively. With the ongoing acquisitions and production capacity expansion, the Group strived to upgrade its existing medium-grade titanium concentrates production lines and thus uplifting the production capacity of the high-grade titanium concentrates.

Remarkable Output Level

The Group has achieved satisfactory growth in the output volume of three core products leveraging the expanding production scale and favourable market conditions.

The following table summarised the breakdown of the total production volume and total sales volume of the Group's four products:

	Six months ended 30 June

Iron Concentrates

During the Reporting Period, the total production volume of iron concentrates was approximately 865.9 Kt, representing an increase of 16.5% as compared to approximately 743.5 Kt in the corresponding period of 2009 (which included the production volume produced by the independent third party processing contractors). The sales volume of iron concentrates was approximately 506.8 Kt, representing an increase of 9.4% as compared to approximately 463.3 Kt in the corresponding period of 2009.

Iron Pellets

During the Reporting Period, the total production volume of iron pellets was approximately 361.6 Kt, representing an increase of 15.2% as compared to approximately 313.8 Kt in the corresponding period of 2009 (which included the production volume produced by the independent third party pelletising contractors). The sales volume of iron pellets was approximately 376.2 Kt, representing an increase of 13.1% as compared to approximately 332.5 Kt in the corresponding period of 2009.

Medium-grade Titanium Concentrates

During the Reporting Period, the total production volume of medium-grade titanium concentrates was approximately 40.2 Kt, representing a decrease of 35.9% as compared to approximately 62.7 Kt in the corresponding period of 2009 (which included the production volume produced by the independent third party processing contractor). The sales volume of medium-grade titanium concentrates was approximately 36.9 Kt, representing a decrease of 43.1% as compared to approximately 64.9 Kt in the corresponding period of 2009.

High-grade Titanium Concentrates

During the Reporting Period, the Group started to produce high-grade titanium concentrates, and the total production volume and total sales volume were approximately 34.0 Kt and 30.9 Kt respectively.

Transportation Advantage

The operating subsidiaries of the Group are located close to the Chengdu-Kunming Railroad, the major transportation corridor in Western China. This significantly lowered transportation costs and minimised lead times from our plants to the nearby stations for our customers, thus enhancing the competitive edge of the Group. During the Reporting Period, the Group continued to enjoy transportation priority from the five nearby stations which secured its customers with the rail transport capacity.

FINANCIAL REVIEW

Revenue

During the Reporting Period, the Group's revenue was approximately RMB685.9 million (six months ended 30 June 2009: RMB486.0 million), representing an increase of 41.1% as compared to the corresponding period in 2009. Such increase was primarily due to the increase in sales volume as a result of the expansion of production capacity and the increase in average selling prices of iron ore products in Sichuan.

Cost of Sales

Cost of sales primarily included mining and stripping contracting fees, processing contracting fees, pelletising contracting fees, materials, labour, power and other utilities, repair and maintenance, and depreciation and amortisation. During the Reporting Period, the Group's cost of sales was approximately RMB326.3 million (six months ended 30 June 2009: RMB276.5 million), representing an increase of 18.0% as compared to the corresponding period in 2009. Such increase was primarily due to the increase in sales volume of iron ore products and the sale of a new product of high-grade titanium concentrates. During the Reporting Period, our cost of sales accounted for approximately 47.6% of our revenue (six months ended 30 June 2009: 56.9%).

Gross Profit and Margin

As a result of the foregoing, the gross profit during the Reporting Period increased by 71.6%, from approximately RMB209.5 million to approximately RMB359.6 million. The gross profit margin increased from approximately 43.1% for the six months ended 30 June 2009 to approximately 52.4% for the Reporting Period. The increase in gross profit margin was primarily because of the increase in average selling prices of iron ore products out-weighted the negative impact from increased average unit cost.

Other Income

The other income increased by 627.3%, from approximately RMB2.2 million for the six months ended 30 June 2009 to approximately RMB16.0 million for the Reporting Period. The other income mainly included income from sale of raw materials.

Selling and Distribution Costs

The selling and distribution costs increased by 36.2%, from approximately RMB12.7 million for the six months ended 30 June 2009 to approximately RMB17.3 million for the Reporting Period and the increase was in line with the increase in sales volume during the Reporting Period. The selling and distribution costs primarily consisted of transportation fees, which mainly represented the road transportation costs, the goods loading and unloading fees, platform storage and platform administration fees.

Administrative Expenses

The administrative expenses increased by 160.2%, from approximately RMB11.8 million for the six months ended 30 June 2009 to approximately RMB30.7 million for the Reporting Period. The increase in administrative expenses was mainly due to the increase in staff costs as a result of the increase in the number of administrative staff, which was in line with the Group's business expansion, the increase in equity-settled share option expenses and the increase in professional consulting fees as a result of acquisition activities taken place during the Reporting Period.

The equity-settled share option expenses of approximately RMB8.6 million for the Reporting Period were incurred because two batches of share options were granted to certain Directors, senior management and employees of the Group on 29 December 2009 and 1 April 2010 respectively.

Other Operating Expenses

The other operating expenses increased by 65.5%, from approximately RMB5.5 million for the six months ended 30 June 2009 to approximately RMB9.1 million for the Reporting Period. The other operating expenses mainly included cost of raw materials sold.

Finance Costs

The finance costs increased by 391.3%, from approximately RMB2.3 million for the six months ended 30 June 2009 to approximately RMB11.3 million for the Reporting Period, primarily due to the increase in interest on bank loans as a result of the increase in interest-bearing bank loans and foreign exchange losses caused by the appreciation of Renminbi against Hong Kong dollars.

Income Tax Expense

The income tax expense increased by 74.3%, from approximately RMB29.6 million for the six months ended 30 June 2009 to approximately RMB51.6 million for the Reporting Period, and the increase was in line with the increase of the Group's profit before tax.

Net Profit Margin and Total Comprehensive Income Attributable to Owners of the Company

As a result of the foregoing, the Net Profit Margin increased from approximately 27.4% for the six months ended 30 June 2009 to approximately 34.1% for the Reporting Period. The total comprehensive income attributable to owners of the Company increased by 75.1%, from approximately RMB133.4 million for the six months ended 30 June 2009 to approximately RMB233.6 million for the Reporting Period.

Interim Dividend

The Board does not recommend the payment of an interim dividend for the Reporting Period.

ACQUISITIONS OF IRON ORE MINES AND PROCESSING PLANTS

- (1) On 16 January 2010, the Group entered into a definitive agreement to acquire the mining right of Yangqueqing Mine, at a consideration of RMB200.0 million. In addition, the transaction provides Huili Caitong with the opportunity to expand the current permitted mining area and to explore at a low cost the neighbouring iron ore resources, which is estimated to be up to 81.6 Mt. This would significantly increase the iron ore resources of the Group, facilitate the expansion of the Group in respect of its iron mining area in the Huili County region and further improve the profitability and competitiveness of the Group. Please refer to the Company's announcement dated 18 January 2010 for further details.
- (2) On 3 February 2010, the Group entered into an assets lease agreement with the First Independent Third Party Processing Contractor to rent an iron concentrates and high-grade titanium concentrates production line and other assets related to the production line at the Heigutian Processing Plant with an annual capacity of 800 Kt iron concentrates and 120 Kt high-grade titanium concentrates for a term of approximately 6 months commencing from 3 February 2010 to 31 July 2010. During the term of the assets lease agreement, Huili Caitong has the option to acquire the leased assets which is subject to the results of due diligence against the leased assets. The lease agreement with option to acquire the leased assets will immediately increase the annual production capacity of iron concentrates and high-grade titanium concentrates of the Group, and upon the exercise of the option, the Group would internalise the increase in production capacities and integrate the leased assets in the Group's production facilities, which in turn will yield greater production output and increase revenue of the Group. Please refer to the Company's announcement dated 4 February 2010 for further details. On 11 March 2010, Huili Caitong decided to exercise the said option to acquire the leased assets and entered into an assets transfer agreement in which Huili Caitong agreed to acquire, and the First Independent Third Party Processing Contractor agreed to transfer, at a consideration of RMB550.0 million, certain assets including the iron concentrates and high-grade titanium concentrates production line and related land use rights, machinery and equipment located at Heigutianshe, Xinjiu Town, Yanbian County, Sichuan. Upon 11 March 2010 being the effective date of the assets transfer agreement, the asset lease agreement dated on 3 February 2010 was simultaneously terminated. Please refer to the Company's announcement dated 12 March 2010 for further details.
- (3) On 3 February 2010, the Group entered into an assets transfer agreement in which the Group agreed to acquire, and Huili Hailong agreed to transfer, at a consideration of RMB310.0 million, the exploration right of the Cizhuqing Mine and certain assets at an iron concentrates production facility located at Xiaoheiqing Town, Huili County, Sichuan. The iron concentrates production line at the Hailong Processing Plant has an annual production capacity of 300.0 Kt for iron concentrates. This acquisition would increase resources and production capacity of the Group, facilitate the expansion of the Group in respect of its iron mining area in the Huili County region in Sichuan and further improve the profitability of the Group. Please refer to the Company's announcement dated 4 February 2010 for further details.

OTHER SIGNIFICANT EVENTS

- (1) On 15 January 2010, Xiushuihe Mining and Nanjiang executed the termination agreement ("Termination Agreement"), pursuant to which the parties agreed to amend and terminate certain provisions under the new co-operation agreement dated 18 March 2009 entered into between Xiushuihe Mining and Nanjiang relating to the construction and upgrade of iron and titanium concentrates production lines at Xiushuihe Processing Plant ("New Agreement"). The reason for the amendment is to reduce the amount of technical support service fee payable to Nanjiang under the New Agreement. Please refer to the Company's announcement dated 18 January 2010 for further details.
- (2) As announced on 23 April 2010, the Group intends to construct a new iron pelletising plant (the "New Plant") in Ailang Townlet, Huili County, Sichuan, which is approximately 5.5 km from the Xiushuihe Mine. Subject to the completion of the Construction Project, a new production line in the New Plant can potentially reach an annual iron pellets production capacity of up to approximately 1,500 Kt. Please refer to the Company's announcement dated 23 April 2010 for further details. Following the issuance of the said announcement, the Group has been constructing the New Plant and implementing the Construction Project.
- (3) The Group entered into an agreement with Panzhihua Jingzhi, pursuant to which the Group extended the option period in relation to the acquisition of the Xiaoheiqing Jingzhi Mine by an additional year from 12 May 2010 to 11 May 2011. Please refer to the Company's announcement dated 13 May 2010 for further details.

LIQUIDITY, CAPITAL RESOURCES AND CAPITAL STRUCTURE

The following table sets out certain information regarding the Group's condensed consolidated statement of cash flows for the six months ended 30 June 2009 and 2010:

	Six months ende	d 30 June
	2010 200	
	(RMB'000)	(RMB'000)
Net cash flows from operating activities	187,683	31,866
Net cash flows used in investing activities	(1,078,164)	(115,854)
Net cash flows from financing activities	215,220	100,000
Net increase/(decrease) in cash and cash equivalents	(675,261)	16,012

Net Cash Flows from Operating Activities

The Group's net cash flows from operating activities increased by 488.4%, from approximately RMB31.9 million for the six months ended 30 June 2009 to approximately RMB187.7 million for the Reporting Period. It primarily included profit before tax of approximately RMB307.2 million, and the increase in trade payables of approximately RMB118.7 million that partially offset by the increase in trade and other receivables due to the increased sales and business expansion.

Net Cash Flows used in Investing Activities

The Group's net cash flows used in investing activities increased by 830.3%, from approximately RMB115.9 million for the six months ended 30 June 2009 to approximately RMB1,078.2 million for the Reporting Period. It primarily included the purchase of items of property, plant and equipment of approximately RMB738.2 million, an increase in prepaid land lease payments of approximately RMB3.8 million and the purchase of intangible assets of approximately RMB336.2 million.

Net Cash Flows from Financing Activities

The Group's net cash flows from financing activities increased by 115.2%, from RMB100.0 million for the six months ended 30 June 2009 to approximately RMB215.2 million for the Reporting Period. It primarily included bank borrowing proceeds net of bank borrowing repayment amounted to RMB200.0 million, and capital injection from a non-controlling shareholder of approximately RMB15.2 million.

Analysis of Inventories

The Group's inventories decreased by 3.1%, from approximately RMB70.9 million as at 31 December 2009 to approximately RMB68.7 million as at 30 June 2010, primarily because the majority of finished goods were sold due to market demand.

Analysis of Trade and Notes Receivables

The Group's trade and notes receivables increased by 93.4%, from approximately RMB137.4 million as at 31 December 2009 to approximately RMB265.8 million as at 30 June 2010, primarily because the production volume was affected by severe drought in the southwestern region of the PRC early this year, higher sales were then made in May and June 2010, and the sales in June 2010 was increased as compared to December 2009.

Analysis of Trade and Other Payables

The Group's trade and other payables increased by 65.9%, from approximately RMB284.8 million as at 31 December 2009 to approximately RMB472.6 million as at 30 June 2010, primarily due to the increase in trade payables in respect of stripping and mining activities and the increase in other payables in respect of progress payments in accordance with the related acquisition agreements.

Analysis of Net Current Assets Position

The Group's net current assets position decreased by 45.7%, from approximately RMB1,772.3 million as at 31 December 2009 to approximately RMB963.1 million as at 30 June 2010, primarily because part of the net proceeds from the Global Offering and the Over-Allotment were used for the acquisition of iron ore mines and processing plants during the Reporting Period.

Borrowings

As at 30 June 2010, the Group's total borrowings were RMB300.0 million, which comprised the unsecured interest-bearing short-term and long-term bank loans of RMB150.0 million each from China Construction Bank (the "Lender") obtained by Huili Caitong in February 2010 with an annual interest rate of 5.31% and 5.94%, respectively. In accordance with the loan agreements entered into between Huili Caitong and the Lender, Huili Caitong agreed not to mortgage or pledge Huili Caitong's mining right of Baicao Mine and the iron concentrates production line with annual production capacity of 500 Kt to any parties, and the Lender will be entitled to pre-emption right in the event of such mortgage or pledge. As at 31 December 2009, the Group's total borrowings were RMB100.0 million, which comprised the unsecured interest-bearing bank loan from the Lender amounted to RMB100.0 million with an annual interest rate of 5.31%. During the Reporting Period, the increase in borrowings was mainly allocated for future investments or projects as strict credit policies may be applied by the PRC government.

Contingent Liabilities

As at 30 June 2010, the Group did not have any material contingent liabilities or guarantees.

Pledge of Assets

As at 30 June 2010, the Group did not have any pledge or charge on assets.

Foreign Currency Risk

The Group's businesses are located in the PRC and its operating transactions are conducted in Renminbi. Most of its assets and liabilities are denominated in Renminbi, except for net proceeds from the listing in 2009 and certain payables to professional parties that are denominated in Hong Kong dollars.

The Renminbi is not freely convertible, there is a risk that the PRC government may take actions affecting exchange rates which may have a material adverse effect on the Group's net assets, earnings and any dividends it declares if such dividends are to be exchanged or converted into foreign exchange. Moreover, the Group has not hedged its foreign exchange rate risk.

Interest Rate Risk

The Group's income and operating cash flows are not substantially affected by changes in market interest rates. We have no significant interest-bearing assets, except for cash and cash equivalents. The Group manages its interest rate exposure arising from all of its interest-bearing loans through the use of fixed rate. In addition, the Group has not used any interest rate swaps to hedge against interest rate risk.

Contractual Obligations

As at 30 June 2010, the Group's contractual obligations amounted to approximately RMB388.0 million, and increased by RMB45.2 million as compared to approximately RMB342.8 million as at 31 December 2009, which was primarily due to various construction contracts entered into for the Group's facilities expansion and mining assets exploration contracts entered into for expanding the Group's mining scale during the Reporting Period.

Capital Expenditure

The Group's total capital expenditure amounted to about RMB1,164.1 million during the Reporting Period, and increased substantially by 966.0% from approximately RMB109.2 million in the six months ended 30 June 2009. The capital expenditure incurred during the Reporting Period mainly comprised of (a) the acquisition of exploration right of the Cizhuqing Mine and Hailong Processing Plant from Huili Hailong amounted to RMB120.0 million and RMB189.5 million, respectively; (b) the acquisition of Heigutian Processing Plant from the First Independent Third Party Processing Contractor amounted to approximately RMB547.6 million; (c) the acquisition of the mining right of Yangqueqing Mine at a consideration of RMB200.0 million; (d) the construction of other miscellaneous projects, including construction and upgrading high-grade titanium concentrates production lines, road reconstruction and the Construction Project, aggregated to approximately RMB107.0 million.

Financial Instruments

The Group did not have any hedging contracts or financial derivatives outstanding for the Reporting Period.

Gearing Ratio

As at 30 June 2010, the Group's cash and cash equivalents exceeded the interest-bearing bank loans. As such, the Group was at a net cash position and no gearing ratio as at 30 June 2010.

USE OF NET PROCEEDS FROM THE GLOBAL OFFERING AND THE OVER-ALLOTMENT

As at 30 June 2010, our use of net proceeds from the Global Offering and the Over-Allotment was as follows:

	Net proceeds from the Global Offering and the Over-Allotment		
Use of proceeds	Available to utilise (RMB million)	Utilised (up to 30 June 2010) (RMB million)	
Acquisition or consolidation of other mines and expansion of			
the existing mining boundaries	1,230.1	959.1

Upgrade of medium-grade titanium concentrates production lines	57.5	8.7	
Working capital	115.1	80.2	
Total	1,661.7	1,134.9	

CHANGE OF USE OF PROCEEDS

Reference is made to the Company's prospectus dated 24 September 2009 in relation to the Global Offering. It was intended that approximately HK\$131.4 million or RMB115.1 million (the "Luchang Proceeds") representing approximately 8.0% of the net proceeds from the Global Offering would be used to finance the construction of two titanium slag production lines with a planned annual aggregated production capacity of 120 Kt at the Luchang Vanadium Titano-Magnetite Industrial Park (the "Luchang Project"). As at the date of this report, the Group has paid approximately HK\$39.6 million or RMB34.7 million out of the Luchang Proceeds to various independent contractors (the "Independent Contractors") as initial prepayment of construction fees, installation fees and equipment purchase fees (the "Prepayment") pursuant to three separate agreements dated 14 December 2009, 15 December 2009 and 14 December 2009 respectively (the "Luchang Agreements"). The Board is confident that upon termination, the Prepayment shall be refunded in full to the Group. For the reasons set out below, the Group intends to terminate the Luchang Agreements with the Independent Contractors and take back the Prepayment as soon as practicable.

The Group primarily engages in mining, ore processing, iron pelletising and sale of iron concentrates and iron pellets with particular focus on increasing its iron ore production capacities through acquisition or consolidation activities. During the Reporting Period, the revenue generated by the sale of iron concentrates and iron pellets accounted for 97.2% of the total revenue of Group. The Board expects that the strong market demand and outlook for iron ore products will continue. Accordingly, the Board has decided to terminate the Luchang Project and better utilise the Luchang Proceeds to finance the acquisition or consolidation of other iron ore mines and to expand its mining boundaries. The Board believes that investing in the acquisition or consolidation of other mines will bring a higher investment return as compared to investing the same amount in titanium slag production. As the result, the change of use of the Luchang Proceeds will better serve the Group's primary business goals and maximise shareholder value.

OUTLOOK

Driven by the post-earthquake construction and Sichuan's rapid development, several new production lines of local steel manufacturers will commence in the upcoming future. The increase in steel capacity will further propel the development of the iron ore industry and further boost its demand in Sichuan. With approximately 10.1 Mt of new steel capacity by 2012, it is expected that the annual crude steel production in Sichuan will increase by 66% from 2009. Moreover, the steel manufacturers in Sichuan have already possessed vanadium extraction technique which will be applied to the 10.1 Mt new steel capacities for producing steel bar with a strength of 400MPa and above. It is expected that the value of the unique feature of the Group's vanadium-bearing titano-magnetite will be fully reflected in the future. As the forerunner of the market, the Group is well positioned to capture these opportunities in this dynamic industry and further expand its business development.

Expansion of Mineral Resources

Forging ahead, the Group is determined to further expand its mineral resources through active acquisitions as well as expansion of the boundaries of its own mining concessions. With a strong acquisition pipeline, the Group is actively seizing every opportunity to expand. The Group has extended the option period in relation to the acquisition of the Xiaoheiqing Jingzhi Mine by an additional year from 12 May 2010 to 11 May 2011. Furthermore, the Group has agreed with Aba Mining Co., Ltd. that it shall proceed with the acquisition of the Maoling Mine, with resource of 10.0 Mt and mining area of 1.9 sq.km., on the condition that all necessary governmental approvals to recommence the mining operations and processing activities are obtained by the end of 2010. In addition, the parties shall enter into an option agreement to grant the Company an option to acquire the exploration right for the Yanglongshan Mine.

Construction of New Processing Facilities

The Group intends to construct the New Plant in Ailang Townlet, Huili County, Sichuan. Upon completion, the new production line can potentially reach an annual iron pellets production capacity of up to approximately 1,500 Kt, thus uplifting the Group's aggregate annual iron pellets self-production capacity to approximately 1,860 Kt. The Group has commenced the construction of the first phase of the plant with a planned annual production capacity of up to approximately 1,000 Kt and expected that the first phase of the project will be completed in the second quarter of 2011. In addition, Aba Mining Co., Ltd. intends to construct new production facilities with an annual production capacity of 250 Kt for iron concentrates and related production infrastructure by January 2011. Furthermore, the Group has commenced the construction of a new iron concentrates production line with a planned annual capacity of 300 Kt, and a new high-grade titanium concentrates production line with a planned annual productions are expected to be completed by the end of September 2010.

It is expected that the strong market demand for iron ore products would bring satisfactory profit growth for the upcoming future. Looking ahead, the Group will continue to improve product structure and enlarge its customer base, committing to achieve excellence in every aspect.

By order of the Board of China Vanadium Titano-Magnetite Mining Company Limited Jiang Zhong Ping Chairman

Hong Kong, 20 August 2010

To the Board of Directors of CHINA VANADIUM TITANO-MAGNETITE MINING COMPANY LIMITED (Incorporated in the Cayman Islands with limited liability)

Introduction

We have reviewed the interim condensed financial information of China Vanadium Titano-Magnetite Mining Company Limited set out on pages 23 to 43, which comprise the interim consolidated statement of financial position as at 30 June 2010 and the related interim consolidated statements of comprehensive income, changes in equity and cash flows for the six-month period then ended, and explanatory notes. The Main Board Listing Rules require the preparation of a report on interim condensed financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34").

The Directors are responsible for the preparation and presentation of this interim condensed financial information in accordance with IAS 34. Our responsibility is to express a conclusion on this interim condensed financial information based on our review. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standards on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim condensed financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim condensed financial information is not prepared, in all material respects, in accordance with IAS 34.

Notes to Interim Condensed Financial Information

For the six months ended 30 June 2010

1. CORPORATE INFORMATION

The Company was incorporated as an exempted company with limited liability in the Cayman Islands on 28 April 2008 under the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The registered office of the Company is located at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The principal place of business of the Company is located at Room 2201, 22/F, Wheelock House, 20 Pedder Street, Central, Hong Kong.

During the Reporting Period, the Group is primarily engaged in mining, ore processing, iron pelletising and sale of iron concentrates, iron pellets and titanium concentrates to steel producers and downstream users of titanium-related products. There were no significant changes in the nature of the Group's principal activities during the Reporting Period.

In the opinion of the Directors, Trisonic International is the parent and ultimate holding company of the Company.

2.1 BASIS OF PREPARATION

The unaudited interim condensed financial information for the Reporting Period has been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting".

The unaudited interim condensed financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2009.

2.2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of this interim condensed financial information are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2009, except for the adoption of new and revised International Financial Reporting Standards ("IFRSs", which comprise standards and interpretations approved by the International Accounting Standards Board ("IASB") and the International Accounting Standards ("IASS") and Standing Interpretations Committee interpretations approved by the International Accounting Standards Committee that remain in effect) that are relevant to the Group's operations as set out in note 2.3 below.

2.3 ADOPTION OF NEW AND REVISED IFRSs

During the Reporting Period, the Group adopted, for the first time, the following new and revised IFRSs that are applicable to its operations in this interim condensed financial information:

IFRS 2 Amendments	Amendments to IFRS 2 Share-based Payment – Group Cash-settled
	Share-based Payment Transactions
IFRS 3 (Revised)	Business combinations
IAS 27 (Revised)	Consolidated and Separate Financial Statements
IFRIC 17	Distributions of Non-cash Assets to Owners
Improvements to IFRSs (April 2009)*	Amendments to a number of IFRSs

* The Group has adopted all the improvements to IFRSs issued in April 2009 which are applicable to its operations.

2.3 ADOPTION OF NEW AND REVISED IFRSs (continued)

The amendments to IFRS 2 clarify how an individual subsidiary in a group should account for certain share-based payment arrangements in its own financial statements. In these arrangements, the subsidiary receives goods or services from employees or suppliers but its parent or another entity in the group must pay those suppliers. The amendments to IFRS 2 also incorporate guidance previously included in IFRIC 8 *Scope of IFRS 2* and IFRIC 11 *IFRS 2 – Group and Treasury Share Transactions*. As a result, the IASB has withdrawn IFRIC 8 and IFRIC 11.

The changes introduced by IFRS 3 (Revised) and IAS 27 (Revised) must be applied prospectively and will affect the accounting of future acquisitions, loss of control and transactions with non-controlling interests. IFRIC 17 clarifies that (i) a dividend payable should be recognised when the dividend is appropriately authorised and is no longer at the discretion of the entity; (ii) an entity should measure the dividend payable at the fair value of the net assets to be distributed; and (iii) an entity should recognise the difference between the dividend paid and the carrying amount of the net assets distributed in profit or loss.

While the adoption of the above new and revised IFRSs may result in changes in certain accounting policies, the adoption of these new and revised IFRSs is unlikely to have any significant financial effect on the interim condensed financial information.

2.4 ISSUED BUT NOT YET EFFECTIVE IFRSs

The Group has not applied the following new and revised IFRSs, which are relevant to its operations, that have been issued but not yet effective in this interim condensed financial information.

IAS 24 (Revised)	Related Party Disclosures ¹
IFRS 9	Financial Instruments ²

¹ Effective for annual periods beginning on or after 1 January 2011

² Effective for annual periods beginning on or after 1 January 2013

Apart from the above, the IASB has issued *Improvements to IFRSs 2010* which sets out amendments to a number of IFRSs primarily with a view to removing inconsistencies and clarifying wording. The amendments to IFRS 1, IFRS 7, IAS 1, IAS 34 and IFRIC 13 are effective for annual periods beginning on or after 1 January 2011 while the amendments to IFRS 3 and IAS 27 are effective for annual periods beginning on or after 1 July 2010 although there are separate transitional provisions for each standard or interpretation.

The Group anticipates the adoption of these new and revised IFRSs is unlikely to have a significant impact on the Group's results of operation and financial position upon initial application.

Notes to Interim Condensed Financial Information

For the six months ended 30 June 2010

3. REVENUE AND SEGMENT INFORMATION

Revenue represents the net invoiced value of goods sold, net of trade discounts and returns and various types of government surcharges, where applicable. There were no trade discounts or returns during the Reporting Period.

The Group's revenue and contribution to profit are mainly derived from its sale of iron concentrates, iron pellets and titanium concentrates, which is regarded as a single reportable segment in a manner consistent with the way in which information is reported internally to the Group's senior management for the purposes of resource allocation and performance assessment. In addition, the principal assets employed by the Group are located in Sichuan. Accordingly, no segment analysis is presented other than entity-wide disclosures.

In accordance with the loan agreements entered into between Huili Caitong and the Lender, Huili Caitong agreed not to mortgage or pledge Huili Caitong's mining right of Baicao Mine and the iron concentrates production line with annual production capacity of 500 Kt to any parties, and the Lender will be entitled to a pre-emption right in the event of such mortgage or pledge.

The carrying amounts of the Group's bank loans approximate to their fair values.

For the six months ended 30 June 2010

15. SHARE OPTION SCHEME

On 4 September 2009, the Company adopted the Old Option Scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Old Option Scheme include the Directors, including non-executive Directors, and other employees of the Group.

On 15 April 2010, the Company adopted the New Option Scheme, and simultaneously terminated the operation of the Old Option Scheme (such that, no further options shall thereafter be offered under the Old Option Scheme but in all other respects the provisions of the Old Option Scheme shall remain in force and effect). Eligible participants of the New Option Scheme include Directors, chief executives, substantial shareholders or employees (whether full time or part time) of any member of the Group and any persons who the Board of Directors considers, in its sole discretion, have contributed or will contribute to the development and growth of the Group. The New Option Scheme will remain in force for 10 years from that date, unless otherwise cancelled or amended.

The maximum number of Shares in respect of which options may be granted under the New Option Scheme and any other schemes of the Company shall not, in aggregate, exceed 207,500,000 Shares, being 10% of the total number of Shares in issue on the adoption date of the New Option Scheme. The maximum number of Shares issued and which may fall to be issued upon exercise of the options granted and to be granted under the New Option Scheme to each eligible participant in the New Option Scheme within any 12-month period is limited to 1% of the Shares in issue as of the date of grant. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to Directors, chief executives, substantial shareholders or any of their respective associates are subject to approval by the independent non-executive Directors (excluding the independent non-executive Directors who are the grantees of the options). In addition, for any grant of share options to substantial shareholders or independent non-executive Directors or to any of their respective associates, in excess of 0.1% of the Shares in issue on the date of offer and with an aggregate value (based on the closing price of the Shares quoted on the Stock Exchange at the date of grant) in excess of HK\$5 million, such grant made within any 12-month period from the date of grant (inclusive) would be subject to Shareholders' approval in a general meeting.

The offer of a grant of share options may be accepted within 28 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the Directors that no option may be exercised more than 10 years from the date of grant.

The exercise price of share options is determinable by the Board, but may not be less than the highest of the nominal value of Shares; the average closing price of the Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant of the share options; and the closing price of the Shares as stated in the Stock Exchange's daily quotation sheets on the date of grant of the share options.

Share options do not confer rights on the holders to dividends or to vote at Shareholders' meetings.

15. SHARE OPTION SCHEME (continued)

The following share options were outstanding under the Old Option Scheme during the Reporting Period:

	Notes	Weighted average exercise price HK\$ per Share	Number of options '000

	13,600	5.05	29 December 2014 to 28 December 2019
	27,200		

The fair value of the share options granted during the Reporting Period was HK\$24,349,000 (equivalent to approximately RMB21,406,000) or HK\$2.59 each (equivalent to approximately RMB2.28 each) (six months ended 30 June 2009: Not applicable) of which the Group recognised a share option expense of HK\$1,752,000 (equivalent to approximately RMB1,540,000) during the Reporting Period (six months ended 30 June 2009: Not applicable).

The fair value of equity-settled share options granted on 29 December 2009 was estimated as at the date of grant, using a binomial model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used:

Dividend yield (%)	1.41
Expected volatility (%)	68.56
Risk-free interest rate (%)	2.652

No other feature of the options granted was incorporated into the measurement of fair value.

The fair value of equity-settled share options granted during the Reporting Period was estimated as at the date of grant, using a binomial model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used:

Dividend yield (%)	1.36
Expected volatility (%)	66.4
Risk-free interest rate (%)	2.788

No other feature of the options granted was incorporated into the measurement of fair value.

At the end of the Reporting Period, the Company had 29,600,000 share options outstanding under the Old Option Scheme. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 29,600,000 additional Shares of the Company and additional share capital of HK\$2,960,000 and share premium of HK\$145,956,000 (before issue expenses).

At the date of approval of this interim condensed financial information, the Company had 29,600,000 share options outstanding under the Old Option Scheme, which represented approximately 1.43% of the Company's Shares in issue as at that date.

For the six months ended 30 June 2010
